In the event of a former audit partner being appointed as a member of the Board and Audit Committee, he/she shall observe a cooling-off period of at least two (2) years before such appointment.

Following its review of the external auditors’ effectiveness and independence, the Audit Committee concluded that there was nothing in the performance of the external auditors which required a change and that the relevant independence requirements continue to be met. TRAINING

During the year, all the Audit Committee members had attended various seminars, training programmes and conferences. Details of these are available at www.ijmplantations.com.

INTERNAL AUDIT FUNCTION

The Internal Audit function is outsourced to the Internal Audit Department (“IAD”) of IJM which is headed by Mr Chan Weng Yew, who holds a Bachelor of Arts (Honours) in Economics from the University of Sheffield, England, is a Fellow of the Association of Chartered Certified Accountants (ACCA) and an Associate of the Institute of Internal Auditors Malaysia (IIAM), and who reports directly to the Audit Committee on the IAD’s activities based on the approved annual Internal Audit Plan. The Board has chosen to outsource this audit function as the Board is of the opinion that the operations of the Group by itself cannot support an effective IAD in terms of availability of appropriate skills and resources, which a large IAD through IJM can provide.

IJM’s IAD comprises twenty (20) auditors and the level of expertise and qualifications within the IAD as at the end of the financial year ended 31 March 2020 was as follows:

<table>
<thead>
<tr>
<th>Qualification Category</th>
<th>Percentage of total auditors</th>

</thead>
<tbody>
<tr>
<td>Diploma Level</td>

<tr>
<td>Bachelor’s Degree</td>

<td>10%</td>
</tr>
<tr>
<td>Professional Qualification (CPA, CIA, ACCA, CIMA, etc)</td>
<td>40%</td>
</tr>
</tbody>
</table>

The total Internal Audit costs incurred for the Group for the financial year ended 31 March 2020 was approximately RM598,000 (2019: RM560,000).

The internal auditors have direct access to the Audit Committee and the Chief Executive Officer & Managing Director. The Audit Committee is satisfied that the internal auditors’ independence have been maintained as adequate safeguards are in place. All internal auditors have signed the annual declarations that they were and had been independent, objective and in compliance with the Code of Conduct and Ethics for Employees of IJM, MIA, and IIAM in carrying out their duties for the financial year.

The IAD provides to the Board (primarily via the Audit Committee) and to Management reasonable assurance on the effectiveness of the Group’s systems of internal control and the adequacy of these systems to manage business risks and to safeguard the Group’s assets and resources.

The Internal Audit Charter sets out the purpose, functions, scope and responsibilities of the IAD and how it maintains independence from the first and second lines of defence by Management. The four main functions of IAD are to:

- Assess and report on the effectiveness of the design and operation of the framework of controls which enable risks to be assessed and managed;
- Assess and report on the effectiveness of management actions to address deficiencies in the framework of controls;
- Investigate and report on cases of suspected employee fraud and malpractice, if any; and
- Undertake designated consulting services for Management provided that they do not threaten IAD’s independence from Management.
The Internal Audit Plan for 2019-2020 which was approved by the Audit Committee in February 2019 reflected the Group’s 2019-2020 Operational Plan that was prioritised following a risk-based assessment of the business and a review against the Group’s risk policies. The reviews carried out covered an extensive sample of controls over all risk types, business units and entities. During the year, the Internal Audit Plan for 2020-2021 was reviewed and approved by the Audit Committee in February 2020.

The IAD adopts a risk based auditing approach, guided by the International Professional Practices Framework (IPPF) issued by the Institute of Internal Auditors Malaysia, prioritising audit assignments based on the Group’s business activity, risk management and past audit findings. They evaluated the adequacy and effectiveness of key controls in responding to risks within the organisation’s governance, operations and information systems, in terms of:

- Reliability and integrity of financial and operational information;
- Effectiveness and efficiency of operations;
- Safeguarding of assets; and
- Compliance with relevant laws, regulations and contractual obligations.

All internal control deficiencies were reported to the appropriate levels of Management when identified. The Audit Committee received quarterly reports from the IAD on audit reviews carried out, Management’s responses to the findings and progress in addressing identified issues. The Management members were made responsible for ensuring that timely corrective actions on the reported control deficiencies were taken within the required timeframes. IAD conducted follow-up audits on key engagements to ensure that the corrective actions were implemented appropriately. In this respect, IAD has added value to enhancing the governance, risk management and control processes within the Group.

The Audit Committee reviewed and approved the IAD’s financial budget and human resource requirements to ensure that the function is adequately resourced.

**INTERNAL AUDIT ACTIVITIES FOR THE FINANCIAL YEAR**

During the financial year, the IAD completed and reported on 37 audit assignments covering the operations in the head office, regional office and the estates and mills both in Malaysia and Indonesia. This included ad-hoc audits conducted on the basis of special requests from the Board, Audit Committee, Senior Management or those arising from the Group’s Whistle Blowing Programme.

The IAD also plays an active advisory role in the review and improvement of existing internal controls within the Group.

The Internal Auditors also strive to continuously keep updated with current developments to equip themselves with the awareness to address new risks as well as the knowledge to better understand existing ones. A total of 561 hours were spent on structured training and development, which averages to 28 hours per person per annum. This is in addition to the numerous hours spent on self-learning for audit purposes. The category of structured trainings attended are as follows:

<table>
<thead>
